

U CLASS CONSOLE

CONNECTED TECHNICAL FURNITURE

www.ctfconsoles.com

The U Class is designed to support up to four CPUs per operator, accessible from both the front and rear, allowing maintenance without disrupting work.

It also features dual height-adjustable tabletops, with screens operating independently of the main work surface. The U Class can be equipped with C Control™, our smart console management platform for enhanced functionality. C Control allows operators to control console lighting, adjust console height, compartment locking, and monitor equipment status remotely via a touchscreen tablet.

MATERIALS

Powder coated mild steel and HPL

FINISH

Powder Coated

GENERAL DIMENSION

- 1200mm L x 1100mm D
- 1650mm L x 1100mm D

FEATURES

Scalable straight configuration modular security desk consoles fitted with **height adjustable 2-monitor tilt-swivel & swing desktop monitor brackets for multiple monitor sizes** on standard VESA mounts.

CPU cabinet space up to 4 workstations.

Swing-out computer CPU shelving provisions at front and rear panel doors with harness straps.

The Console has a discreet channel duct which allows for easy cable access.

Integrated under-the-table equipment cabinet provides a secure storage compartment for computer workstations and vital control equipment from within the desk console unit.

Main frame and sub sections are **constructed out of mild steel tubular and sheet plates**, powder coated to a textured matt finish. The work surface and the decorative side panel is constructed from HPL.

Built-in slotted cable management system within main frame carcass and rear top panel. Removable bottom access panels for direct wire feed-thru from external raised floor cable access points. Compartmentalized raceway runs for separate power and signal cable runs.

Pre-engineered modular construction design, flat-pack profile for complete bolt-on assembly at site.

Two tier lifting mechanism to independently adjust the tabletop workspace from the monitor holding vesa track. Allows to lower the monitors for an unrestricted view of the control room and the videowall monitoring screens.

Locally designed and
manufactured in Dubai using
materials of the highest quality
and the latest machinery.
