

MEETING ROOM & CONFERENCE TABLES

CONNECTED TECHNICAL FURNITURE

www.ctfconsoles.com

CTF's custom designed meeting room tables are perfect for professionals and businesses to conduct collaborative discussions in high performing environments.

Designed ergonomically, CTF meeting room table range incorporates cable management with power and data connectivity for seamless operations. With full customization capabilities, conference room tables can be tailor made to fit the use case with different add on features such as height adjustment options, wireless charging pads, audio and visual integrations and storage options. Our team of inhouse designers will create 2D and 3D photorealistic renders in line with the client's aesthetical preferences to produce state of the art meeting room table solutions for efficient collaborative environments.

MATERIALS

Mild Steel table body, HPL or MDF table surface

FINISH

Powder Coated

FEATURES

Cable management through the table body separating power and data cables for optimum data transfer and a clutter free experience.

Seamless power and data connectivity with multiple outlets and ports across the table length to support the latest technologies and devices.

Pre-engineered modular construction design for complete bolt-on assembly at site.

Adjustable tabletop that goes up to 1.2 m in height for a sit-stand work environment for increased comfort and ergonomics.

Options to integrate interactive or touch screen displays, microphones, and speakers for a seamless collaborative experience.

Integrated wireless charging pads to conveniently charge phones without the clutter of wires, cables and adapters.

Integrated under the table storage cabinets for secure storage for computer and control equipment.

Fully customizable to fit client requirements and aesthetics while following ISO 11064-4 standards.
