

VIDEOWALL STANDS

CONNECTED TECHNICAL FURNITURE

www.ctfconsoles.com

Video wall stands are required wherever monitors are to be mounted without a supporting wall. CTF's range of monitor stands incorporate cable management with heat dissipation management whilst providing a strong frame to mount the panels on safely.

Designed as per ISO 11064-4-2013, CTF's videowall stands can securely hold multiple screens together, creating large, seamless display surface for various applications ranging from surveillance in control rooms, media broadcast rooms, in retail for advertisements, or in conference and office rooms.

APPLICATIONS

Surveillance

Media and Broadcast

Advertisements

Offices

STANDARD COLOUR
